## Description:

Now in its eighth year, Digital Painting Techniques: Volume 8 continues the tradition of showcasing the latest digital painting trends and techniques from industry experts. This volume presents detailed tutorials on how to create custom brushes and illustrate scenes from differing points of view; how to design characters, costumes, and machines; as well as techniques used for matte painting.

Its a little bit out of date, and I wish they focused a bit more on corel painter and some of the other painting programs. I feel like its a bit heavy on the photoshop. And I couldnt find a newer version, its like they stopped making them or something . But the info in it was somewhat helpful. Its a lot of tool introduction and UI walkthroughs and examples of digital art here and there.
